- CSS
- PYTHON
- SQL
- MS office

PROJECTS

- **Distance measurement using Ultrasonic sensor & Arduino UNO Board.**
  - This project is just a simple device useful to measure distance accurately. Sometimes we need measurements very accurately then we use this project.

- **Electrical Grid Intact Improved Maximum Demand Control Using WIFI & IOT.**
  - In this project maximum demand controller is a device designed. when the industries or houses crosses the load limit the monitoringunit automatically identifies and cuts the access power in the system.
  - when the load crosses the limit, the current information will be send to the EB station with the help of GSM module.

ACHIEVEMENTS & AWARDS

- I am a mandal level cricket player.
- I have won mandal level running race championship during my 9th standard.
- I scored a more than 75% in all my academics.

INTERESTS

- Web Designing
- Python Development
- Data Analytics
